

Web and Mobile App Developer and Network Designer

Professional Summary

Dynamic and self-motivated professional with experience at Bahir Dar University, excelling in problem-solving and mentoring. Proven ability in web development using JavaScript and Node.js, while fostering collaboration and engagement in community outreach programs. Committed to promoting digital literacy and enhancing student learning experiences through innovative workshops.

Experience

Work Study Student

1. Full-Stack Web Development Projects

Junior Full-Stack Developer (Project-Based)

Online Student Clearance Management System (OSCMS):

- Developed a centralized system to automate the university clearance process, replacing manual paperwork with a digital workflow.
- Tech Stack:** React.js, Node.js, Express, and MongoDB (MERN).
- Key Achievement:** Integrated secure authentication and real-time status tracking for graduating students.

Lake Tana Tourism Management System (LTTMS):

- Designed a digital platform to promote and manage tourism activities around Lake Tana.
- Implemented features for tour booking, site information, and a responsive UI for mobile and desktop users.

Skills

Technical Skills

- Programming Languages:*
 - ❖ *JavaScript,*
 - ❖ *Node.js,*
 - ❖ *PHP,*
 - ❖ *Python,*
 - ❖ *SQL,*
 - ❖ *MongoDB*
 - ❖ *Java*

- *Frameworks & Tools:*

- ❖ *Express.js,*
- ❖ *React,*
- ❖ *Flutter*
- ❖ *Vite,*
- ❖ *RESTful APIs*
- ❖ *Git/GitHub,*
- ❖ *Cisco Packet Tracer,*
- ❖ *Docker ,*
- ❖ *Vercel,*
- ❖ *Render*
- ❖ *Visual studio*

- *Database Management:*

- *MySQL,*
- *MongoDB*

- *Web Development:*

- ❖ *Frontend*
 - *HTML,*
 - *CSS,*
 - *JavaScript*
 - *React*
 - *API*
- ❖ *Backend*
 - ★ *Node.js*
 - ★ *Express*

- *Mobile Application Dev:*

- ★ *Flutter*
- ★ *Firebase*

- *Networking & Systems:*

- *Networking design,*
- *IP addressing,*
- *operating system concepts*

- *Security Practices:*

- ★ *JWT authentication,*
- ★ *input validation,*
- ★ *Encryption,*
- ★ *access control*

- *Deployment & Hosting:*

- *Managing hosting*
- *Environments,*
- *scaling applications, troubleshooting*

- *Data Entry & Documentation:*

- ❖ *Accurate data handling,*
- ❖ *record management,*
- ❖ *structured reporting*

Soft Skills

- *Problem Solver*

2. Mobile App Development

DGRL (Digital Grade-Report Locker):

- Built a cross-platform mobile application using **Flutter** and **Dart** to help students securely store and access their academic records.
- Focused on UI/UX design to ensure ease of use for the student body.

Hospital Wayfinding & Concierge App:

- Developed a prototype for a digital concierge system to assist patients with hospital navigation and tracking pharmacy inventory.

3. Competitive Programming & Leadership

University Hackathon Participant (48-Hour Challenge):

- Collaborated in a 3-person team to build a functional software solution under strict time constraints.
- Demonstrated rapid prototyping skills and effective team communication.

Technical Content Creator:

- Managed a technical YouTube channel focused on programming tutorials and software demonstrations, reaching a community of aspiring developers.

4. Systems & Networking

Network Configuration Specialist (Lab Simulation):

- Designed and configured local area networks (LANs) using Cisco Packet Tracer.
- Applied routing protocols (RIP) and implemented subnetting to optimize network performance for departmental use-cases.

Internship

Full-Stack Developer Intern 7, 2026– 10, 2026

- **System Architecture:** Led the development of the **Lake Tana Tourism Management System**, creating a digital portal for regional tourism services.

- Collaborative Communicator – Works effectively in teams
- Leadership & Mentoring
- Cultural Innovator
- Time Management
- Self-Motivation

Software

Fullstack Development

Languages

English

Amharic

- **Graphics & Visualization:** Leveraged **HTML5 Canvas** and **JavaScript** to create interactive UI elements and cultural patterns for the web interface.
- **Database Management:** Designed and optimized **MongoDB** schemas to handle diverse datasets including user bookings and site metadata.

Education

Bachelor of Computer Science: Web Development

Bahir Dar University - Bahir Dar, Ethiopia
Expected Graduation : in 2027-06

Accomplishments

- **Academic Excellence** – Consistently achieved top results in Computer Science courses, excelling in programming, networking, and operating system history.
- **Project Innovation** – Designed and developed an **Eco-Tourism Platform** to digitize Ethiopian heritage and promote cultural tourism.
- **Technical Achievement** – Built the **Gebeta Game App** using React, Node.js, and MongoDB, showcasing full-stack development skills.
- **Community Contribution** – Volunteered at university workshops, mentoring junior students and promoting digital literacy in rural communities.
- **Recognition & Awards** – Honoured with certificates for networking design and innovation in technology projects.
- **Leadership & Collaboration** – Coordinated academic events, coding bootcamps, and survey projects, demonstrating organizational and teamwork skills.

Affiliations

- **Member, Computer Science Student Association (University of Bahir Dar)** – Participated in workshops, coding bootcamps, and peer mentoring programs.
- **Volunteer, University Community Service Program** – Contributed to digital literacy initiatives and eco-tourism awareness projects.

- **Participant, University Hackathon & Coding Competitions** – Collaborated with peers to design innovative solutions and showcase programming skills.
- **Member, Local Technology & Innovation Club** – Engaged in discussions on emerging tools, backend development, and cultural digitization projects.

Additional Information

- **Languages:** Fluent in Amharic and English, with strong communication skills for academic and professional settings.
- **Computer Literacy:** Proficient in Microsoft Office Suite (Word, Excel, PowerPoint), Google Workspace, and data entry tools.
- **Time Management:** Skilled at balancing academic studies, project development, and volunteer commitments effectively.
- **Self-Motivation:** Highly driven to achieve goals independently, with a consistent record of completing projects on time.
- **Community Engagement:** Active volunteer in university programs, supporting digital literacy and eco-tourism initiatives.
- **Interests:** Passionate about cultural digitization, football (Arsenal FC), and instrumental music for focus and creativity.

Certifications

- ❖ Networking Designer
- ❖ Fullstack Hackathon
- ❖ Ethio coders
- ❖ E-SHE
- ❖ Internet of Things

Interests

- ❖ **Full-Stack Web Development:**

- Passionate about building scalable web applications using the **MERN stack** (MongoDB, Express, React, Node.js). Interested in modern UI/UX design, state management, and deploying seamless, high-performance web solutions on cloud platforms like **Vercel** and **Render**.

- ❖ **Mobile Application Development:**

- Focused on creating cross-platform mobile experiences using **Flutter** and **Dart**. Interested in mobile security, offline-first applications, and building intuitive interfaces that solve local accessibility challenges.
- ❖ **Network Design & Administration:**
 - Interested in designing and simulating robust network architectures using **Cisco Packet Tracer**. Enthusiastic about exploring routing protocols (**RIP**, **OSPF**), subnetting, and network security to optimize organizational connectivity.
- ❖ **AI & Machine Learning Integration:**
 - Interested in the practical application of **Large Language Models (LLMs)** and local AI tools like **Ollama** to create "smart" software environments and automated workflows.
- ❖ **Digital Content Creation:**
 - Passionate about technical communication and education through video production, specifically sharing programming tutorials and software logic to help the local developer community.

Summary

- ★ **I am Motivated and detail-oriented Full-Stack Developer** with hands-on experience building dynamic, scalable, and secure applications. Proficient across the **MERN stack** (MongoDB, Express.js, React, Node.js), **PHP**, and **Python**, with a proven ability to deliver modern web solutions from concept to deployment.
- ★ Beyond technical expertise, I leverage strong problem-solving and time-management skills to ensure efficient project delivery. I am passionate about blending technology with cultural authenticity, as demonstrated through my contributions to university workshops and regional eco-tourism platforms.
- ★ **Core Competencies:**

Full-Stack Development: Expert in frontend (React, Vite) and backend (Node.js, PHP) integration.

Database & Security: Proficient in database design (SQL, MongoDB) and implementing secure authentication.

API & Deployment: Experienced in building RESTful APIs and managing hosting via Git/GitHub, Vercel, and Render.

Collaboration: Proven track record in team environments, mentoring peers, and technical documentation.
